Counseling and Psychotherapy - Allen E. Ivey 1987

Counseling and Psychotherapy Theories in Context and Practice - John Sommers-Flanagan 2015-05-20 Apply the major psychotherapy theories into practice with this comprehensive text Counseling and Psychotherapy Theories in Context and Practice: Skills, Strategies, and Techniques, 2nd Edition is an in-depth guide that provides useful learning aids, instructions for ongoing assessment, and valuable case studies. More than just a reference, this approachable resource highlights practical applications of theoretical concepts, covering both theory and technique with one text. Easy to read and with engaging information that has been recently revised to align with the latest in industry best practices, this book is the perfect resource for graduate level counseling theory courses in counselor education, marriage and family therapy, counseling psychology, and clinical psychology. Included with each copy of the text is an access code to the online Video Resource Center (VRC). The VRC features eleven videos—each one covering a different therapeutic approach using real therapists and clients, not actors. These videos provide a perfect complement to the book by showing what the different theories look like in practice. The Second Edition features: New chapters on Family Systems Theory and Therapy, as well as Gestalt Theory and Therapy Extended case examples in each of the twelve Theory chapters A treatment planning section that illustrates how specific theories can be used in problem formulation, specific interventions, and potential outcomes assessment Deeper and more continuous examination of gender and cultural issues An evidence-based status section in each Theory chapter focusing on what we know from the scientific research, with the goal of developing critical thinking skills A new section on Outcome Measures that provides ideas on how client outcomes can be tracked using practice-based evidence Showcasing the latest research, theory, and evidence-based practice in an engaging and relatable style, Counseling and Psychotherapy Theories in Context and Practice is an illuminating text with outstanding practical value.

Counseling and Psychotherapy Theories in Context and Practice - John Sommers-Flanagan 2012-02-10 "Student-friendly and comprehensive, Counseling and Psychotherapy Theories in Context and Practice, Second Edition provides an in-depth understanding of the origins, development, and key figures of each major theory and strongly emphasizes the application of these theories in real-world practice. Pedagogical features include opening chapter outlines, "Putting It In Practice" boxes, practitioner reflections, ethical highlights, case examples, as well as chapter summaries, chapter glossaries, and recommended readings and resources. The Second Edition includes a new section on treatment planning in each chapter and increased coverage of multicultural issues. A Study Guide for students is also available (978-0-470-90437-4)."

Theories of Counseling and Psychotherapy - Linda Seligman 2006 For courses in Counseling Theories and Techniques. Theories of Counseling and Psychotherapy: Systems, Strategies, and Skills categorizes theories by their background, emotions and sensations; thoughts, opinions, and actions. This structure helps students better understand similarities and differences among theories and provides an overarching framework that other texts lack. The book explores both established and emerging treatment systems. Using skill development sections, diverse case studies and innovative exercises, the text moves beyond traditional texts to directly connect counseling theories to clinical practice. It reflects current knowledge about effective treatment, theories and interventions, and continually promotes readers' skill development and confidence. By the end of the text, readers will have an introduction to the theoretical foundations of the field and the basic clinical skills needed to be an effective helping professional.

Theories of Counseling and Psychotherapy - Elsie Jones-Smith 2014-10-29 This breakthrough edition of Theories of Counseling and Psychotherapy: An Integrative Approach, by Elsie Jones-Smith, sets a new standard in counseling theories books. The Second Edition goes beyond expert coverage of traditional and social constructivist theories with coverage of more contemporary approaches to psychotherapy, including individual chapters on spirituality and psychotherapy, strengths-based therapy, neuroscience and neuropsychotherapy, motivational interviewing, and the expressive arts therapies. In every chapter, the case study of a preadolescent boy demonstrates how each theory can be applied in psychotherapy. Up to date and easy to read, the book engages readers with inner reflection questions that help them apply the theories to the lives of their clients and shows them how to develop their own integrative approach to psychotherapy.

Theory and Practice of Counseling and Psychotherapy - Gerald Corey 2016-01-01 Incorporating the thinking, feeling, and behaving dimensions of human experience, the tenth edition of Corey's best-selling book helps students compare and contrast the therapeutic models expressed in counseling theories. Corey introduces students to the major theories (psychoanalytic, Adlerian, existential, person-centered, Gestalt, reality, behavior, cognitive-behavior, family systems, feminist, postmodern, and integrative approaches) and demonstrates how each theory can be applied to two cases (Stan and Gwen). With his trademark style, he shows students how to apply those theories in practice, and helps them learn to integrate the theories into an individualized counseling style. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Counseling and Psychotherapy - David Capuzzi 2016-03-24 Featuring important theories and trends not covered in other foundational texts, this book is designed to equip the next generation of counselors with the tools they need for understanding the core dimensions of the helping relationship. Topical experts provide contemporary information and insight on the following theories: psychoanalytic, Jungian, Adlerian, existential, person-centered, Gestalt, cognitive behavior, dialectical behavior, rational emotive behavior, reality therapy/choice theory, family, feminist, transpersonal, and—new to this edition—solution-focused and narrative therapies, as well as creative approaches to counseling. Each theory is discussed from the perspective of historical background, human nature, major focus, theoretical position, main strategies, and examples from actual clinical practice. Comprehensive and powerful, this edition is a must-read for every counselor and therapist.

Counseling and Psychotherapy Essentials - Glenn E. Good 2006 Actual psychotherapeutic practice is predominantly eclecticclinicians mix schools and methods as they seek to address their clients' needs. Yet psychotherapy textbooks are still stuck in clinical pigeonholes and are often more committed to a theoretical
position than to helping students learn how to be effective in the therapy hour. Here students will find a textbook that brings their classroom experience into agreement with the demands of actual clinical practice.

The SAGE Encyclopedia of Theory in Counseling and Psychotherapy: Edward S. Neukrug 2015-02-12 The SAGE Encyclopedia of Theory in Counseling and Psychotherapy is a two-volume source that traces theory and examines the beginnings of counseling and psychotherapy all the way to current trends and movements. This reference work draws together a team of international scholars that examine the global landscape of all the key counseling and psychotherapy theories and the theorists behind them while presenting them in context needed to understand their strengths and weaknesses. This is a quick, one-stop source that gives the reader the “who, what, where, how, and why” of contemporary counseling and psychotherapy theory. From historical context in which the theories were developed to the theoretical underpinnings which drive the theories, this reference encyclopedia has detailed and relevant information for all individuals interested in this subject matter. Features & Benefits: Approximately 335 signed entries fill two volumes available in a choice of print or electronic formats. Back matter includes a Chronology of theory within the field of counseling to help students put individual theories within a broader context. A Master Bibliography and a Resource Guide to key books, journals, and organizations guide students to further resources beyond the encyclopedia. The Reader’s Guide, a detailed Index and the Cross References combine for effective search-and-browse in the e-version and helps students take the next step in their research journeys. This reference encyclopedia serves as an excellent source for any individual interested in the roots of contemporary counseling and psychotherapy theory. It is ideal for the public and professionals, as well as for students in counselor education programs especially those individuals who are pursuing a Masters level degree.

Theory and Treatment Planning in Counseling and Psychotherapy: Diane R. Gehart 2015-03-03 One of the first books in the field of counseling to use a competency-based approach for teaching counseling and psychotherapy theories, Gehart’s text is designed to teach the skills and knowledge outlined in current CACREP Standards. Featuring state-of-the-art, outcomes-based pedagogy, the text introduces counseling and psychotherapy theories using theory-informed case conceptualization as well as treatment planning. Assignments encourage students to apply theoretical concepts and develop real-world skills as early as possible in their training, resulting in greater mastery of the material. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Counselling Skills and Theory 4th Edition: Margaret Hough 2014-06-06 Trust this bestselling resource to provide you with the clearest introduction to the major approaches in counselling. Theories and Applications of Counseling and Psychotherapy: Earl J. Ginter 2018-03-22 Theories and Applications of Counseling and Psychotherapy provides students with the foundational knowledge needed to implement various therapeutic approaches in individual and family counseling. The dynamic author team of Earl J. Ginter, Linda E. Pfost, and Lawrence H. Gerstein presents theories through a multicultural and social justice-oriented lens, including evidence to support each theory. Students will embrace chapter concepts through vibrant illustrations and relevant examples from movies, TV shows, news articles, and other sources presented throughout.

Counseling Theories: Samuel T. Gladding 2005 For Theories of Counseling and Psychotherapy courses. This practical text provides clear, succinct coverage of the core concepts of all of the major contemporary theories of counseling and psychotherapy, including separate chapters on solution-focused and on feminist theory. Each theory chapter begins by discussing the major theorist or theorists responsible for the theory. The chapters then examine how the theory views (1) human nature, (2) the role of the therapist in counseling, and (3) the therapeutic process and techniques. Chapters then present the historical development of the theory and its contributions to multicultural and gender issues. Then each chapter concludes by applying the theory to a single case-the case of Linda-that is used across all of the chapters. The text is ideal for instructors who want to give their students a clear understanding of theories’ essential concepts and applications.

An Introduction to Counselling and Psychotherapy: Andrew Reeves 2012-11-16 This book is an authoritative introduction to everything you need to know to become a professional therapist. It takes you through the entire therapeutic process, introducing the theory and applying it to real-life practice. Drawing on years of experience as a counselling practitioner and researcher, Andrew Reeves links counselling and psychotherapy theory to the development of appropriate skills, and locates it within the context of therapeutic practice today. Engagingly and accessibly written, the book is packed with learning features including Chapter Overviews, Summaries and a Glossary - helping you navigate the book and get the most out of it. Discussion Points, ‘Skills Practice’ and ‘Pause for Reflection’ sections, helping you critically engage with and reflect on what you have learned. Case Studies and scenarios, helping you apply key ideas in practice across settings and modalities. Indicated Further Reading and Important Websites - supporting your continued learning. This groundbreaking textbook represents a benchmark in understanding - and applying - the principles and practice of counselling and psychotherapy. It’s accompanied by a companion website featuring a wealth of chapter-by-chapter resources for both students and lecturers to use alongside the book. From extended case studies through to web resources, links and PowerPoint presentations, these extra resources will help aid and enhance your learning and understanding. Andrew Reeves is a counsellor at the University of Liverpool and Editor of Counselling and Psychotherapy Research journal.

DVD Counseling and Psychotherapy Theories in Context and Practice: John Sommers-Flanagan 2011-01-20 Learn the various counseling theories through authentic examples led by actual practitioners working with real clients This comprehensive two-DVD set promotes student learning by illustrating each of the counseling theories covered in the textbook Counseling and Psychotherapy Theories in Context and Practice, Second Edition by John and Rita Sommers-Flanagan. However, the DVDs can be used in conjunction with this text or as a stand-alone teaching tool in any course covering psychotherapy theories and techniques. Unique in its presentation of real clinicians from a variety of work settings—including school and college counselors—working with actual clients, the DVDs: Feature practitioners and clients who represent ethnic, gender, age, and religious diversity Model how to develop a positive therapeutic relationship from any theoretical perspective Help students not only understand the differences between theories, but also the difference between theory and technique Offer commentary by the authors on the study theoretical position of each theory A particular counseling theory was appropriate for the client’s situation Exploring Psychoanalytic, Adlerian, Existential, Person-Centered, Gestalt, Behavioral, Cognitive-Behavioral, Reality, Feminist, Solution-Focused, and Family Systems theories, these two DVDs shed light on these theories in real practice with clients.

Contemporary Theories in Counseling and Psychotherapy: Edward Neukrug 2020-05-27 Contemporary Theories in Counseling and Psychotherapy provides readers with a comprehensive introduction to cutting-edge therapeutic approaches that are widely revered and used, but generally not included within traditional counseling theories textbooks. Readers learn theories that will not only keep their knowledge current in an evolving field, but also will help to improve and support the ongoing development of their personal practice. The text features contributed chapters written by scholars in the discipline that cover the following contemporary theories: contemporary psychodynamic therapy (CPT); contemporary person-centered counseling (CPCC); cognitive behavioral therapy (CBT); integrative post-modern therapy (IPMT; narrative, solution-focused, relational-cultural); dialectical behavior therapy (DBT); acceptance and commitment therapy (ACT); motivational interviewing (MI); positive counseling; neurocounseling (including EMDR); and complementary, alternative, and integrative
Core Competencies in Counseling and Psychotherapy—Len Sperry 2011-01-19 Core Competencies in Counseling and Psychotherapy addresses the core competencies common to the effective practice of all psychotherapeutic approaches and includes specific intervention competencies of the three major orientations. The book provides a research-based framework to aid clinicians in applying these competencies in their own practice. It begins by identifying and describing the core competencies and skills of expert therapists, then elaborates six core competencies and related supporting competencies and skill-sets. Instead of a review of psychotherapy theory and research or a cookbook of methods and techniques, Core Competencies in Counseling and Psychotherapy is a highly readable and easily accessible book that can enhance the knowledge and skill base of clinicians – both novice and experienced – in all the mental health specialties.

Theories of Psychotherapy & Counseling: Concepts and Cases—Richard S. Sharf 2015-01-01 Reflecting the latest practices from the field, the comprehensive THEORIES OF PSYCHOTHERAPY AND COUNSELING: CONCEPTS AND CASES, 6th Edition equips readers with a solid understanding of the systematic theories of psychotherapy and counseling. A proven author and popular professor, Dr. Richard Sharf combines a thorough explanation of concepts with insightful case summaries and therapist-client dialogues that illustrate techniques and treatment in practice. Dr. Sharf demonstrates how to apply theories to individual therapy or counseling for common psychological disorders such as depression and general anxiety, and apply them to group therapy. For major theories, the text includes basic information about background, personality theory, and theory of psychotherapy to help readers understand the application of psychotherapy theory. In addition, insight into the personal lives and philosophical influences of theorists helps explain how the theorists view human behavior. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Theories of Psychotherapy & Counseling: Practice and Theory—Len Sperry 2011-01-19 Counseling and Psychotherapy is a highly readable and easily accessible book that can enhance the knowledge and skill base of clinicians – both novice and experienced – in all the mental health specialties.

Nelson-Jones’ Theory and Practice of Counselling and Psychotherapy—Richard Nelson-Jones 2014-11-10 This sixth edition provides an essential introduction to the major theoretical approaches in counselling and psychotherapy today. Comprehensive and accessible, it now includes two brand new chapters on Mindfulness and Positive Therapy, as well as additional content on ethics, on new developments in each approach, including the latest research and updated references. Following a clearly-defined structure, each chapter describes the origin of the therapeutic approach, a biography of its originator, its theory and practice, discusses case material and key developments, and further readings. Richard Nelson-Jones’ authoritative and practical textbook is the ideal companion for students on introductory courses and those embarking on professional training.

Counseling and Psychotherapy Theories in Context and Practice, with Video Resource Center—John Sommers-Flanagan 2015-06-22 Apply the major psychotherapy theories into practice with this comprehensive text Counseling and Psychotherapy Theories in Context and Practice: Skills, Strategies, and Techniques, 2nd Edition is an in-depth guide that provides useful learning aids, instructions for ongoing assessment, and valuable case studies. More than just a reference, this approachable resource highlights practical applications of theoretical concepts, covering both theory and technique with one text. Easy to read and with engaging information that has been recently revised to align with the best in industry best practices, this book is the perfect resource for graduate level counseling theory courses in counselor education, marriage and family therapy, counseling psychology, and clinical psychology. Included with each copy of the text is an access code to the online Video Resource Center (VRC). The VRC features eleven videos each one covering a different therapeutic approach using real therapists and clients, not actors. These videos provide a perfect complement to the book by showing what the different theories look like in practice. The Second Edition features: New chapters on Family Systems Theory and Therapy as well as Gestalt Theory and Therapy Extended case examples in each of the twelve Theory chapters A treatment planning section that illustrates how specific theories can be used in problem formulation, specific interventions, and potential outcomes assessment Deeper and more continuous examination of gender and cultural issues An evidence-based status section in each Theory chapter focusing on what we know from the
Counseling and Psychotherapy: Everyday Practice in Our Diverse World is the first book to provide an integrated presentation of relational competencies, microskills, and theories. Clear and concise, it gives an overview of current theories, presents best-known evidence-based relationships and practices, and explains how theories apply to counseling and psychotherapy. Students not only learn about the traditional theories such as psychodynamic, behavioral, existential, humanistic, cognitive/behavioral, and multicultural, but also learn newer theories on motivational interviewing, solution focused, and ACT. In addition, neuroscience findings are integrated to show how psychotherapy changes our brains. Student learning is enhanced via reflection and application exercises, theory application examples, and case demonstrations to reinforce student learning. The book's unique focus on multicultural and social justice awareness, knowledge, skills, and actions fills a gap and helps students bridge what they learn in the classroom with the application of theory in the real world. Intended for both graduate and undergraduate courses, Essential Theories of Counseling and Psychotherapy is an ideal foundational text for theory courses found in departments of counseling, psychology, human services, marriage and family therapy, and counselor education. For a look at the specific features and benefits of Essential Theories of Counseling and Psychotherapy, visit cognella.com/essential-theories-of-counseling-and-psychotherapy-features-and-benefits.

Skills in Person-Centred Counselling & Psychotherapy-Janet Tolan 2012-01-20 This book has already helped thousands of beginning practitioners understand the subtleties of the person-centred approach and develop skills in person-centred counselling practice. Now in its second edition, this step-by-step guide takes the reader through the counselling process, providing advice on how to structure and manage therapeutic work in ways which are thoroughly grounded in person-centred principles. Janet Tolan defines the key tenets of the approach - psychological contact, congruence, empathy and unconditional positive regard - and demonstrates how they are used effectively in a range of counsellor-client interactions. Describing all aspects of the therapeutic relationship from the initial meeting to ending the relationship well, this new edition contains new chapters - 'Debates and Developments in Practice' and 'Edgy and Ethical Issues'. This book provides an ideal introduction for beginners and for more experienced therapists who want to extend their range. Janet Tolan is a Consultant and Private Practitioner in Manchester. She has worked extensively in education and training, most recently as leader of the Counselling and Psychotherapy Masters programme at Liverpool John Moores University.

Counseling and Psychotherapy with Children and Adolescents-H. Featuring contributions by an all-star team of clinicians from around the world, it is a valuable source of insight and guidance on: Ethical and legal issues involved with treating children and adolescents Counseling children from a multicultural perspective. Psychodynamic, Adlerian, behavioral, rational-emotive, systemic, and reality-therapy approaches to interventions with children Alternative models and techniques. Counseling and psychotherapy with children and adolescents with disabilities.

Counseling Theories and Techniques for Rehabilitation and Mental Health Professionals, Second Edition-Pong Chan, PhD, CRC 2015-02-18 The only text about counseling theories and techniques developed
specifically for upper-level rehabilitation counseling students and practitioners, this book is now fully updated with a focus on evidence-based practice. It reflects the great strides made in incorporating research-based knowledge into counseling/therapy interventions since the first edition's publication nearly 10 years ago. The book disseminates the expertise of many of the most esteemed leaders and academic scholars in rehabilitation counseling. These authors emphasize state-of-the-art scientific evidence that supports the effectiveness of various counseling approaches and techniques for people with and without disabilities.

Counseling and Psychotherapy Theories in Context and Practice Study Guide—John Sommers-Flanagan 2012-05-01 Expand and reinforce your understanding of counseling and psychotherapy theories. This supplementary resource to Counseling and Psychotherapy Theories in Context and Practice, Second Edition will further deepen your understanding of three key components of counseling and psychotherapy theory and practice: self-awareness, knowledge, and application and skill development. This Study Guide offers: A pre-test and post-test in each chapter that will orient you to key theoretical principles and evaluate how well those principles fit with your values and beliefs. An opening and closing professional development essay written by a student, practitioner, or faculty member who is active within the counseling or psychology professions. Multiple-choice practice tests for each chapter to reinforce important theories and concepts. A comprehensive short-answer question review for each chapter. Practice activities designed to help students experience and practice implementation of each theory. Critical reflections on each theory. Crossword puzzles to keep learning fun. A glossary of key terms for each chapter. Instructor Site: www.wiley.com/go/counselingtheories

Counselling Skills and Theory 3rd Edition—Margaret Hough 2010-07-30 This is where you can find an overview of the major approaches in counselling, how they fit together, and how you can integrate them into your practice. It’s also your guide to the nature of counselling, the skills needed to be a counsellor and managing the challenges of the counselling relationship. This new edition is suitable for a wide range of courses, including Foundation, Certificate, Diploma and Higher Education studies in Counselling. There is discussion of the Improving Access to Psychological Therapies programme with expanded coverage of CBT approaches. It also references the latest BACP guidelines for counsellor training and best practice. The book reflects the impending requirement for statutory regulation of counsellors and psychotherapists via the Health Professions Council. Every year the Case Studies, Exercises, Handouts, and Resources tips in this book help thousands of trainees and established practitioners develop their understanding of the theories and practical skills required in this challenging and rewarding profession!

Counseling Theory and Practice (Second Edition)—Edward Neukrug 2018-08-03 Developed for helping professionals, Counseling Theory and Practice explains what it means to be an effective helper, discusses foundations of classic counseling and psychotherapy theories, provides an overview of emerging theories, and gives students the opportunity to develop their own approaches to counseling and psychotherapy practice. The book is organized into four primary sections, each addressing theoretical schools. Section 1 explores psychodynamic approaches, including psychoanalysis, Jungian therapy, and Adlerian therapy. Section 2 is devoted to existential-humanaistic approaches such as existential therapy, Gestalt therapy, and person-centered counseling, while Section 3 discusses cognitive-behavioral approaches, including behavior therapy, cognitive behavior therapy, rational-emotive behavior therapy, and reality therapy. Section 4 describes postmodern therapies and examines the relatively new approaches of narrative therapy, solution-focused brief therapy, and relational cultural therapy, a form of feminist therapy. The final chapter explores a number of more recent and emerging theories. In support of the textbook, Counseling Theory and Practice features a Cognella Active Learning component that provides students with videos, reflection exercises, PowerPoint slideshows, flashcards, and quizzes in a digital environment. These additional materials give students an accessible way to study outside of the classroom in their own time and at their own pace. Informative and engaging, Counseling Theory and Practice is well-suited to courses for both pre-service professionals and those already in the field. For a look at the specific features and benefits of Counseling Theory and Practice, visit cognella.com/counseling-theory-and-practice-features-and-benefits.

Counseling and Psychotherapy with Children and Adolescents—H. Thompson Prout 2012-06-13 Covering all the major approaches to counseling children and adolescents—including psychodynamic, Adlerian, person-centered, cognitive-behavioral, rational-emotive, reality therapy, solution focused, and family systems—Counseling and Psychotherapy with Children and Adolescents, Fourth Edition equips you to become familiar with the latest thinking and practice in counseling and psychotherapeutic interventions with children and adolescents.

Individual Counseling and Therapy—Mei-wei Chen 2017-11-07 Individual Counseling and Therapy, 3rd edition, goes beyond the typical counseling textbook to teach the language of therapy from the basic to the advanced. Lucidly written and engaging, this text integrates theory and practice with richly illustrated, real-life case examples and dialogues that demystify the counseling process. Readers will learn how to use winning skills and techniques tailored to serve clients—from intake to problem exploration, awareness raising, problem resolution, and termination. Students have much to gain from the text’s depth, insights, candor, and practicality—and less to be befuddled by while they develop their therapeutic voice for clinical practice. PowerPoints, chapter test questions, and an instructor’s manual are available for download.

Working with Difference and Diversity in Counselling and Psychotherapy—Rose Cameron 2020-04-27 This book guides you through the complexities of working with difference and diversity in counselling and psychotherapy. It introduces you to contemporary thinking on the construction of difference, social identity and culture, and applies the theory to therapy practice. With reflective exercises and case examples, it will help you to work more confidently and sensitively with difference. Rose Cameron is a practitioner and a trainer in counselling and psychotherapy. She is currently a Teaching Fellow at the University of Edinburgh.
